

CUPE speaks out for Mental Health Services in all the District Health Authorities across Nova Scotia

Get the facts on mental illness:

- One in five Canadians will experience a form of mental illness in their life.
- Every day more than 500,000 Canadians miss work due to a form of mental illness.
- At this very moment, some 3,000,000 Canadians are living with depression.
- In Canada, only one out of five children who need mental health services receives them.
